

THE SEA BOTTOM

THE SEA BOTTOM is a level 4 piece for concert band. It's got a retro science fiction/fantasy vibe, exotic and slightly not of this world. It's inspired by 20,000 Leagues Under the Sea, The Undersea World of Jacques Cousteau, or really anything with a giant squid!! There is extra fun for the percussion section with features for flexatone (yes, flexatone) and big toms, in addition to rainstick and other goodies. The instrumentation is on the smaller side to accommodate high school programs, with 2 flute parts, 1 oboe, 1 bassoon, 2 horns, etc., but it will also sound great with a large group.
